ABOUT US

MORE THAN A TOUR. A CONNECTION TO A LIVING CULTURE.

Bribri_Cultural_Tours was created to connect travelers with the Bribri people, their culture, territory and the natural world of Costa Rica.

We believe tourism can be a way to learn, share and create a positive impact.

Our experiences are built around authentic knowledge, living traditions and learning by doing — from cacao and medicinal plants to rainforest adventures, rivers and community life.

We work to make tourism a force that supports local families, respects the territory and helps keep Bribri culture alive.

Travel with us. Learn from the land. Connect with the culture.

SIBÖ BÉ KÍMĚ

OUR PHILOSOPHY

CULTURE IS NOT SOMETHING WE SHOW. IT IS SOMETHING WE LIVE.

For us, tourism is more than visiting a place. It is about creating a genuine connection with the people, the land and the knowledge that makes this territory unique.

Our experiences invite you to participate, ask questions, learn by doing and see the world through a different perspective.

We believe tourism can create meaningful connections while respecting the territory and supporting the people who call it home.

LEARN BY DOING.

MEET YOUR GUIDE

THE PERSON BEHIND THE JOURNEY

Hello, my name is Roberth.

I am a Bribri man, a tourism professional, and someone deeply connected to the culture, rainforest and land where I grew up.

I graduated from university with a degree in Tourism and have spent the past six years guiding travelers and sharing the Caribbean of Costa Rica — its landscapes, wildlife, people and culture.

But for me, tourism is more than a profession.

I am committed to the rescue, transmission and continuation of Bribri knowledge and traditions. Through my experiences, I share what I have learned about wildlife, plants, cacao, agriculture, Bribri history and the way our people understand and connect with the natural world.

I believe the best way to learn is by doing. That is why my experiences are not simply about visiting a place. They are about participating, asking questions, connecting and seeing the world from a different perspective.

I follow the Bribri principles of living consciously and in harmony with the Earth, with respect for the land, the people and everything around us.
